

SYNOPSIS OF THE PROJECT

Roll No & Name	57 Vismaya K Shabu
Name of Guide	Dr Deepa Mary Mathews
Contact Number:	7356184124
Email id	vismayakshabu99@gmail.com
Shared folder/git repository details	https://github.com/vismaya-k-shabu/FinalProject
Project Topic	Securing ecommerce transactions using block chain
<p>Description of Project:</p> <p>TheDesiAchar is a web application that manages secure ecommerce transaction of pickles for the ladies self help group.</p> <p>The DesiAchar application has two web interfaces:</p> <ol style="list-style-type: none">1. Client application <input type="checkbox"/> Used by the end users to buy pickles2. Seller application <input type="checkbox"/> Used by the sellers to configure, manage and maintain the orders <p>The application uses blockchain technology to securely manage the transaction history. The transaction made by each client would be hosted on the Ethereum block chain to make it secure.</p> <p>The clients or end users can use the web interface to manage cart, place orders</p> <p>The sellers can update the order status and this would be moved or stored onto a block in the Ethereum chain.</p>	
Front End and Back End Tool	Angular ,.Net core,Sql server,Ethereum
